Subject: Agenda for meeting 7/28/09

Dear Beth,

The agenda for the meeting tomorrow morning is as follows:

A discussion of the issues which were not adequately dealt with in the Q and A, including noise issues, protection of wildlife, protection of scenic resources of statewide significance, and protection of human populations from "annoyance" and torment from the siting of wind projects.

Please advise who will be attending the meeting and your exact location. We would like to use a space with a wall receptacle nearby to review the file after the meeting. I'll bring a scanner to copy anything that we find of interest. Thanks very much.

Steve Thurston
Monique Aniel
